ebro® Electronic gains Mike Uzelac, Export Manager of ebro®, as Product Manager for Food Technology

In addition to his position as Export Manager, Mr. Dipl.-Ing. (FH) Mike Uzelac (36) has taken on responsibility as Product Manager for food technology at ebro® Electronic - the measuring instrument specialists located in Ingolstadt, Germany, as from June 1st, 2008.

In 1997 Mr. Uzelac began studying at the college of higher education in Duisburg, where he completed his degree in Electrical Engineering in 2002. After his studies, he took up a job as a Sales Engineer at ebro® Electronic. Due to his dedication and high commitment he was promoted to the position as Export Manager.

In his function as Product Manager for food technology, Mr. Uzelac will attend to one of our most important product ranges and will act as an important link between our departments marketing, development, production and distribution. Further, he will maintain contacts with food inspectors, cooperate with food associations and attend food conventions.

This year, ebro® celebrates its 40th anniversary, having gained experience in developing and producing measuring instruments - e. g. handheld instruments and data loggers for temperature, pressure, humidity, pH-values and others - for more than 30 years.

ebro's measuring instruments are used in various markets, such as food, pharmacy, chemistry, biochemistry, medicine and general industry.
