

# **Temperature Data Logger EBI 12**

for quality control during pasteurization and sterilization

## BLUE LINE

The EBI 12 data logger is used for temperature measurement in canned food, jars, beverage cans and much more.

- High-quality stainless-steel housing
- Axial design
- M5 thread for attachment to the probe
- Application range from -55 °C to 150 °C
- High temperature accuracy of up to ±0.1 °C
- Version with two measuring channels Temperature sensor 3 mm, rigid

#### **Technical Data:**

| Operating temperature | -55 °C +150 °C                                     |
|-----------------------|--|
| Measurement range     | -55 °C +150 °C                                     |
| Accuracy              | ± 0.5 °C (-55 °C40 °C)                             |
|                       | ± 0.2 °C (-40 °C 0 °C)                             |
|                       | ± 0.1 °C (0 °C +150 °C)                            |
| Resolution            | 0.01 °C  |
| Data memory           | 2x 13,920 measurements                             |
| Sensor                | PT1000, class A                                    |
| Measurement interval  | 1 s 24 hours                                       |
| Real-time data        | No   |
| transmission          |  |
| Storage temperature   | -20 °C +70 °C                                      |
| Measurement modes     | <ul> <li>endless measurement</li> </ul>            |
|                       | <ul> <li>Measure upon starttime</li> </ul>         |
|                       | <ul> <li>Start immediately until end of</li> </ul> |
|                       | memory   |
|                       | Start- / Stop measurement                          |
| Battery               | Lithium, 3.6 V,                                    |
|                       | User-replaceable                                   |
| Dimensions            | (Ø x H) 48 mm x 24 mm                              |
| Weight                | Арр. 90 g  |
| Housing material      | 316 L stainless steel / PEEK                       |
| Protection class      | IP68   |
| Factory Calibration   | -20 °C, 0 °C, +60 °C and +134 °C                   |
| Certificate           |  |

#### **Standards and Directives:**

- (EC) 1935/2004 Materials and articles which come into contact with food
- 2014/53/EU Radio Equipment Directive RED
