### **Fold back thermometer TLC 700 for gastronomy and catering according to EN 13485**

INGOLSTADT – (October 4, 2012) – With the TLC 700, ebro Electronic launches a small and cost effective folding thermometer for core temperature measurements with dimensions of 116 x 38 x 20 mm. The TLC 700 complies with the norm EN 13485 (ability: S, T, E) and is delivered with a factory calibration certificate.

With the large display, a high accuracy of  $\pm 0.5$  °C and a measurement range from -40 °C to +250 °C this new product meets or exceeds all criteria for a reliable core temperature measurement in the field of gastronomy and catering. The device is washable (protection class IP 65) and therefore it can also be used in a wet area. The standard lithium button cell (CR 2032) is user replaceable.

#### **About ebro Electronic GmbH:**

ebro Electronic GmbH is a fast growing, innovative manufacturer of electronic instruments that are used in food, medicine and pharmacy. As a division of Xylem- a \$ 3.8 billion company headquartered in the U.S. with over 12,000 employees worldwide, ebro sells its range of proprietary temperature, pressure and other instruments in over 50 countries. With over 100 employees at its headquarters in Ingolstadt, ebro combines the advantages of a large corporation with those of a medium-sized enterprise.

#### **About Xylem**

Xylem (XYL) is a leading global water technology provider, enabling customers to transport, treat, test and efficiently use water in public utility, residential and commercial building services, industrial and agricultural settings. The company does business in more than 150
